

Topa Insurance Group COVID-19 Response

Topa Insurance was founded by John E. Anderson on the principle of “Do the Right Thing”. During this unprecedented time, our leadership team has been focused on doing just that.

Our workforce was seamlessly operating remotely in less than one week.

Our team has remained dedicated to maintaining strong relationships, aligned partnerships and excellent service during these uncertain times by continuing to uphold our commitments.

We have provided relief to our insureds through refunds and extended grace periods for payment.

Using paid volunteer time or free time, our employees have given back to their communities by donating masks, decorating their homes to spread cheer and donating meals to frontline workers.

We thank all of our employees, policyholders, and distribution partners for their support as we navigate this pandemic together.
